Company Profile

Compressor 2000 was established by Mr. Frans Pretorius in 1999 in Brakpan. Frans worked as a Compressor Technician for many years and decided to take his break into the Business world, with little capital and a small workshop to start with. This was a tough challenge, but through determination and hard work he survived and now, after 21 years he can look back and see what can be achieved with hard, honest work.

This is precisely why our premises boasts a modern fully equipped workshop capable of handling any compressor, in our workshop or on-site. Compressor 2000 meets customer's needs by addressing and finding the best solution to any problem through our technical department and with the collaboration of the most renowned research centers in the compressor sector.

Compressor 2000 offers state-of-the-art products by keeping a breast of the latest technology advances in compressors. Over the years, service and quality has become an integral part of the company and the search for techniques, which ensure quality assurance, is one of the main goals of our company policy.

Compressor 2000 quality means: :Looking for sound and reliable BEE suppliers who can meet the specifications to obtain ISO 9001 approval and who can collaborate with us to respect company requirements. One of these reliable suppliers is Kaishan Air Compressors, manufactured by Rotorcomp of Germany creating German reliability quality and performance in all Kaishan Air Screws. The key electric and logic controller was designed by Scneider which is well known for their quality worldwide. The German designed cooling system offers superior oil and gas separation reducing ppm pollution.

Leaders in price and performance, Kaishan Air Screws offer new levels of value, quality, reliability and performance. Built to German Design and standards using selected German Parts, Kaishan offers a Class-Leading unit at a Low Price, and the Lowest servicing cost.

We also stock Kaishan Air Dryers with easy to read control panel, auto fault detector and auto shutdown when not in use. High efficiency Dryer System designed to meet the highest standards and demands in conjunction with Rotorcomp Germany. A wide Spread and ultra-dependable after sales service from our workshop lies behind Compressor 2000, gaining and maintaining market shares. We also offer a reliable 24 hr breakdown service and a solid 2 year guarantee covering the product sold.

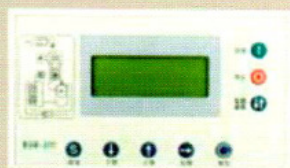

After all said, **WE DO CARE FOR AIR**
